

Autonomous VEHICLE Policy Framework SUMMIT PUBLIC REPORT OUT

TUESDAY, DECEMBER 12, 2017
5 PM

Caltrans District 7 Office
Room 01.037
100 S Main St
Los Angeles, CA 90012

COME SEE THE RESULTS!

Autonomous Vehicle (AV) experts from across the US will gather to develop policies related to AVs. By invitation academic researchers, AV industry representatives, representatives of all levels of government, consultants and public interest groups will spend two days in a workshop setting building on previous AV policy work, create a framework for AV policy and develop advanced AV policies. They will identify which level of government is responsible for which policies, along with their enacting mechanism (law, regulation, ordinance, funding, etc.). The product will provide the basis for public agencies to move forward in preparing for AVs to ensure that their impact will be positive. It will also provide a policy framework for future AV policy development efforts to build on.

This public event will showcase the results of the AV Policy Summit.
